A son of Captain D. V. Wilson, of Chesterfield county, aged ten years, had his left arm shattered yesterday by the kick of a mule. Mr. Joseph Hudson, while sitting in a store on Halifax street Saturday evening, was struck upon the knee by accidentally discharged from a pistol which s gentleman was examining in a house ome distance awsy. The ball struck the ground somewhere between the two bouses, and had pretty well spent its force when Mr. Hudson was bit. A bruise was the ROBIN ADAIR.

## DANVILLE.

A COLORED MAN SHOT IN A BAR-ROOM-THE TRADE IN TOBACCO-AMONGST THE PREACH-EES-OBITUARY. [Correspondence of the Richmond Bispatch.]

August 29, 1881. C. T. Brown, the keeper of a saloon on Colon street, put a bullet through the ear of a colored man Saturday hight. The story is that the man went into the apartnent of the saloon in which white people are waited on, was requested by a colored stlendant to go round on the other side, refused to go, was ordered out by Brown, and refused to go out. Thereupon a scrimmage occurred, in which the negro received one wound upon the head and a bullet-hole

week amounted to \$46,161.37. This is more than twice the usual weekly average, and shows large shipments of manufactured to-The trade in leaf, as you have been aformed, is brisk. The proprietor of one of the warehouses tells me that all grades have advanced from 30 to 50 per cent. One day last week he sold 32.770 pounds at an average of \$21, and on another day he sold 10 790 pounds at an average of \$28.

come out smiling, confident, and reassured.

The members of the Cabinet were all here this morning, but were so well satisfied with the outlook that they remained only a short time. There was no material change in the President's condition during the afternoon un-

til about a quarter past 4, when the usual febrile rise began, and his temperature for the first time since morning rose above the normal point. His pulse and temperature both reached about the maximum at the M.—The daily rise of the President's temperature began later this afternoon than spectively 110 and 100 5-10. In an interview with a reporter of the

ever, as having any great importance. It is easily enough accounted for." "In what way?"

"There was a good deal of confined pus in the parotid swelling. The patient is very sensitive to the influence of retained pus. As soon as the pus accumulates any his temperature shows it. We got it pretty much all out at the evening dressing, but it had already bad its effect. The fever will soon subside now."

"How does the glandular swelling look ? " "Better than at any time heretofore; better than I expected it would this morning. It has perceptibly diminished in size. and the pus pockets are running together. We shall probably make another incision tomorrow, and release another considerable quantity of pus which will be ready by that time to come out."

Secretary Blaine's Latest Dispatch. Washington, D. C., August 29 .- The

following was sent to-night:

Lowell, Minister, London: At half-past
10 o'clock to-night the general condition of the President is favorable. Late in the afternoon his pulse rose to 112 and his temperature to 100, both a little bigber than the surgeons expected. The pulse has now fallen to 108, and the fever is subsiding. The parotid swelling is steadily improving, apprehensions of serious blood-poisoning grow less and less every bour.

BLAINE, Secretary.

The Cotton Crop. CHICAGO, August 29.-Mr. S. H. Richardson, of Gilbert & Brega, commission merchants, has been making a thorough and systematic inquiry as to the condition of the cotton crop. They received the latter part of last week telegraphic advices from about sixty correspondents stationed at different points in the South. They are published this morning in the Times. From data at his command Mr. Richardson estimates that the entire crop of 1881 will not exceed 5,000,000, or 150,000 bales below that of last year. In this he is sustained by the views of cotton experts in the pro-ducing regions, though the Mobile Board of Trade estimates the yield at 6,000,000

New ORLEANS, August 29 .- A fire oc curred to-day among the cotton stored be-tween decks on the steamer Serra. The exsured. The fire is believed to have been of incendiary origin.

THE IMPROVEMENT CONTINUES AND PROMISES A Bishop's Opinion of the President LONDON, August 29 .- The Bishop of Tennessee, preaching at Seaford, in Sussex, on EXECUTIVE MANSION, August 29-12:30 
EXECUTIVE MANSION, 10 P. M.—It may be suid to-night, without any over-statement of the world to put down all autracts, that the improvement in the President. The dying President, he said, was

rock near Goodspeed's landing, half way between Saybrook Point and Hartford, about 9 o'clock last night. She was lomediately run sabore, and lays there with her stern under water. No panie ensued, and no lives were lest. Her passenger-list could not be accertained.

could not be accertained.

The Telegram's special from Goodspeed Scation, Conn., gives the following particulars: "While steaming quietly down the river she had to swerve and make way for a schooner. The stern of the boat collided with a rock, and water began to pour in. The utmost confusion prevailed, as many were in the staterooms and emerged in their night-clothes. Three persons-a man, his wife, and child-went overboard in the ex-citement, but were saved. The water was over the main deck in less than five min-utes. The pumps were started without utes. The pumps were started without avail. The passengers were ordered to the upper deck. Orders were given to the men to run the boat ashore, and just as it reached the bank the water quenched the fires. A ferry-boat between \$20. Lard quest at \$13700\$1.38. Corn dul and lower at \$20. Lard quest at \$1300 \$1.39. quenched the fires. A ferry-boat between oodspeed and the opposite side of the river came at once to the In reply to questions with regard to the repeated accumulation of pus in the lungs, Dr. Bilss said: "We have examined the lungs every day, and they have always been and are now in perfect condition. The respiratory murmur this morning was clear and natural, and there was not a single indication of any abnormal symptoms."

The Doctor was then questioned with regard to the reported existence of pus in process of spongug off, and as often as he process of spongug off, and as often as he is river came at once to the reseue, and convexed the patient some pain and caused his pulse, which had previously been at 100, to rise to 104. The patient rested quietly through-out the morning, and his pulse was noticeably steadier than yesterday, ranging from 100 to 104 or 106. Whenever he fell asleep his pulse went down to 100. During the process of spongug off, and as often as he it was inberated. The cutting, slight as it river came at once to the reseue, and convexed the passengers to the Goiston House in Goodspeed, where they spent the night with limited accommodations. The steamer Granue State, in returning from an excursion to Martha's Vineyard, reached Good-out the morning, and his pulse was noticeably steadier than yesterday, ranging from 100 to 104 or 106. Whenever he fell asleep his pulse went down to 100. During the process of spongug off, and as often as he in Goodspeed, where they spent the night with limited accommodations. The steamer Granue State, in returning from an excursion to Martha's Vineyard, reached Good-out the morning, and his pulse was notice. New Orleans—The Vield of the Record and distance of the Record and a state of the reported existence of pus in pushed the knee joint. "Who invents these absurd stories?" be inquired. "There is no pus in the knee joint or anywhere else, expected or disturbed, it would rise from four to six beats. It was, boat have lost their baggage, some of it being the control of confusion. The baggage-room is completely under water. The baggage master, Sidney Sellen, is thought to be lost. When last seen he was up to his waist in water and is probably in the room. The clerk cannot give the number of passengers or poard. They are estimated at two hundred. The papers are lost. The loss is from \$30,000 to \$40,000, and is covered by marine insurance.

NEW YORK, August 29.—Noon.—Stocks strong, Money, 4645 per cent. Exchang.—Long. 4796; 4794; short, 482);4483. State bonds duil, Governments strong. # Arms, Shore and Service and

NEW YORK, August 29.—The Post's financial article (1:40 P. M. edition) says: The Stock Exchange was one of all o'clock, and since then the share special attochasts been fairly active, with the net result an advance of \$622 per cent, and including some of the new outside stocks. like Memphis and Charleston, 3½ per cent. The strongest stocks, exclusive of the new outside stocks, like Memphis and Charleston, 3½ per cent. The strongest stocks, exclusive of the new set fancies, have been the Southwestern, Western Union Telegraph, Denver and this Gararde, the coal shares, and the grangers. The Elevated rather weak. The trunk line shares are dull out firm. United States bonds are strong and higher, the 4's and 4y's having advanced \$6 such, and the extended 5's \$5. The rise in the two former is due to a belief—whether well grounded or not it is impossible to sav—that when the Treasury resumes bond-purchases it will be of these long bonds rather than of those which bear less interest. Nate bonds are neglected. Railroad bonds are quiet but generally higher, the advance being led by the speculative issues, as was the recent decline. In the loan market the quotation for call and time loans and prime mercantile paper is 5650 per cent, and, now internating the favorable character in important respects of Saturday's bank statement, an inprovement in the condition of the banks is generally looked for this week. It is call-mated that hot far from \$9,000,000 of foreign gold are on the way here. The market for foreign exchange is rather luadive, but the working rates show a clear profit in importing gold.

BALTIMORE. BALTIMORR, August 27.—Virginta 6's, consola 784; bast-due compons, 92%; second series, 38%; new 10-40s', 73. Bid to-day.

told an Associated Press reporter to-night that he should hereafter exact of every reporter a copy of what he said before the latter left. He had found sayings quoted that he had never uttered; and if he found that a reporter made use of any expression beyond the copy left he should not accord him a second interview. The reporter then asked, "Are you reported correctly in the evening papers to-day that you had no doubt whatever but that the President would recover?"

Dr. Hamilton: "No, sir: I would not say that of any patient, and much less of that he found not asy that of any patient, and much less of the found that a reporter then asked, "Are you reported correctly in the evening papers to-day that you had no doubt whatever but that the President would recover?"

Dr. Hamilton: "No, sir: I would not say that of any patient, and much less of the found that a reporter then asked that the President would recover?"

Dr. Hamilton: "No, sir: I would not say that of any patient, and much less of the found that a reporter then asked."
